

1 MAIN MENU / START SCREEN

CYBER RUN – UNIVERSITY CYBER DEFENCE SIMULATOR

WHAT THE PLAYER SEES

- Game title, tagline and cyber city background.
- Start Run and Byte Bot buttons.
- Pilot profile panel with name, high score, rank, awareness level and achievements.

PLAYER ACTION

- Enter pilot name.
- Review profile and stats.
- Open Byte Bot guide.
- Click Start Run to begin.

PURPOSE

Introduces the game theme and prepares the player before entering the cyber world.

2 BYTE BOT GUIDE SCREEN

MEET BYTE BOT – YOUR CYBER CO-PILOT

WHAT THE PLAYER SEES

Byte Bot introduces himself and explains how to play.

PLAYER ACTION

Read the instructions and click "Ready, Byte Bot" to continue.

PURPOSE

Teaches the player the controls, objectives and how to make safe cyber decisions.

3 GAMEPLAY BEGINS

CYBER RUN IN ACTION

WHAT THE PLAYER SEES

Three-lane cyber road with the runner/ship. HUD shows score, level, combo, speed and lives.

PLAYER ACTION

Move left or right to collect tokens and intercept threats.

PURPOSE

Provides fast-paced endless runner gameplay and prepares the player for cyber challenges.

4 COLLECTING POINTS

TOKEN COLLECTION

WHAT THE PLAYER SEES

A green +5 token appears in one of the lanes.

PLAYER ACTION

Move into the correct lane and collect the token.

GAME RESPONSE

Score +5, combo increases and the run continues.

PURPOSE

Rewards attention and smooth movement during gameplay.

5 THREAT BOX INTERCEPTED

A SUSPICIOUS MESSAGE DETECTED

WHAT THE PLAYER SEES

A red threat box is intercepted. Gameplay pauses and a phishing message simulation appears.

PLAYER ACTION

Interacts with the threat box.

GAME RESPONSE

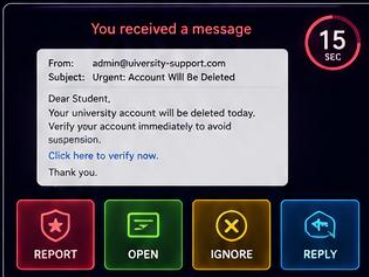

The run pauses and a cyber decision challenge opens.

PURPOSE

Transitions the player from running into a cybersecurity decision challenge.

6 DECISION CHALLENGE

WHAT SHOULD YOU DO?

WHAT THE PLAYER SEES

A realistic suspicious message with a 15-second timer. Choose the safest action.

PLAYER ACTION

Select one option: Report, Open, Ignore or Reply.

CORRECT RULE

If phishing → Report
If safe → Open

PURPOSE

Tests the player's ability to make quick and safe cyber decisions under pressure.

7 FEEDBACK & LEARNING

THREAT LESSON

WHAT THE PLAYER SEES

Feedback shows whether the answer was correct or wrong and why.

PLAYER ACTION

Read the lesson and click Resume Run.

GAME RESPONSE

Correct → +points, level, combo and achievements.
Wrong → -1 life.

PURPOSE

Helps the player learn from mistakes and recognize phishing warning signs.

8 RUN COMPLETE

TRAINING REPORT

WHAT THE PLAYER SEES

Final score, stats, rank, awareness level and achievements earned.

PLAYER ACTION

Save progress, run again or return to the main menu.

PURPOSE

Summarizes performance and motivates the player to improve and replay.
